## About the Workshop:

Silvie Granatelli's workshop will focus on making pots that aim to highlight foods in special ways. She will demonstrate dinnerware and place settings, serving dishes, such as bowls, baking dishes and platters, along with several types of pouring vessels, ewers, pitchers and teapots, with carving and slip trailing, as well as stain decoration on bone-dry pots. She'll also give a presentation showing many of the finished versions of pots that she will be making in the workshop.
